Premium Coated Inkjet Paper 120gsm

- Fully-coated medium/high resolution paper for monochrome and colour printing
- Ink jet layer yields incredibly dense areas and colour fills
- Enhanced colour vibrancy and excellent control of high ink levels
- Non-reflective matt finish
- Up to 1440dpi resolution
- Compatible with thermal, piezo printers with dye, UV and pigmented inks
- Excellent for hot and cold laminates
- Manufactured from approved FSC sources

which machine?

Premium Coated Inkjet Paper 120gsm:
Suitable for use on most aqueous dye/UV pigmented ink printers including:-
HP
Epson
Canon
Roland/Kodak
Océ
Mutoh
Xerox

Barcelona Multi-Purpose Silk Photo Paper 170gsm

- Tear proof

- Good scratch resistance

- Exceptionally broad colour gamut

- Cockle-free prints

- Fast drying with normal ink loads

- Outstanding light diffusion

- Compatible with thermal & piezo printers

- Compatible with dye inks

- Can be calibrated to use up to 25% LESS INK than ordinary resin or PE-coated photo papers

Photo Realistic Matt Paper 180gsm

- Barrier coated to prevent cockling at high ink loads

- Water resistant with pigmented inks

- Smooth, premium quality paper

- Reverse side coatings to prevent curling at high ink loads

- Non-reflective matt finish

- Excellent results from any printer with thermal and piezo heads using dye, UV pigmented and vivera inks

- Ideal for cold and hot lamination

Mutoh
Xerox

Premium Photo Satin Paper 170gsm

- Satin finish for optimum colour vibrancy

- Minimal-reflective satin finish

- High-white coating for superb colour contrast results

- Smooth coating for continual colour

- Blending and vibrant colour fills

- Highest quality photographic paper with double-sided PE coating for exceptional stability and quality feel

- Optimised for excellent results with dye based inks using thermal printhead technology

- Designed for mounting and cold lamination
